24	PSS01794	Development	After deleting the newly added building, the building details page display either the previously viewed or first building from the building list. If you try to edit one of the values like building type or floor count or construction date, the page throws the following error "The ASP provided invalid input to the component" when you save.
25	PSS01796	Security Administration	When deleting a role for a user who has more than one role, the systems gives a message "The access level is not set for the user"
26	PSS01793	Executive Summary	Demo Dispo Information shown in the HA executive sumary is partially incorrect. The reqtueving query has 'NY003' hardcoded in the component.
27	PSS01818	SEMAP	If a FYE Correction happens after FYE Change, SEMAP will not display that the HA has changed his FYE recently. It will reflect the FYE Correction.
28	PSS01808	Security Administration	Some users(mainly for FO HA User & TARC HA User) getting Javascript error while generating User activity query report.
29	PSS01806	Development	Guest user can change building type, construction date, floor count gives the user an option to enter a change comments in a new window with the save button. If he clicks the save button what ever data he changed will be saved in the database. This SCR fix will prevent the Guest user to edit the building information.
30	PSS01807	Security Administration	Downloading the UserActivity Query Report in Excel gives and ASP error at the bottom of the Excel file.
31	PSS01812	Security Administration	Search by Userid in the User Activity Query page was returning zero records.
32	PSS01813	SEMAP	Prevent FO user to add comments before HA submitting the certification to FO for scoring.
33	PSS01826	Demolition/Disposition	If there are no HA's under TARC (e.g. Memphis), the page displays a proper error message and none of the developments are listed from other TARC (e.g. Cleveland)
34	PSS01833	Demolition/Disposition	Dd Application Shouldn't Be Allowed To Be In Hqapproved Status If The Unit Transaction Table Already Has A Record For That Unit
35	PSS01825	Demolition/Disposition	If a user has only access to Demo Dipo Reports tab then when the user access Demo Dispo sub module the user will recieve a ASP (UBound)error
36	PSS01846	Housing Authority	Functionality to add/edit "Title" in HA Report (HA Contacts)

37	PSS01845	Demolition/Disposition	Added code to restrict the review list to list the applications which are bound to the login user id in application review business function. Suppose if the user was not on the SAC office list, then display all the applications.
38	PSS01848/PSS01485	Development	Incorrect Unit counts in HA submodule. Terminated Developments included during summarization process.
39	PSS01847	Demolition/Disposition	Restricted the PFS and Captial funds unit amount in demo/dispo section2 to nine digits (999999999) from ten digits (9999999999), reduced max lengths of the input fields of the above money fields from 10 to 9 in PIC interface.
40	PSS01849/ PSS01843/ PSS01844	Development	B&U Excel Upload Worksheet does not format the data properly. Building, Building Entrance and Unit Numbers will now be set to text format to enable users to enter '00xx' values for these fields. Also, the construction date, door number, floor count and unit tenant type code will be validated.If you download the building detail and unit detail report data in Comma Separated Value file (basicall excel file), some of the builiding, building entrance and unit number data downloads erratically and values are displayed in an exponential form in CSV file.
41	PSS01850	Housing Authority	Modifying HA Details will lead to improper FYE Change to 3/31. Also, HA History List and Details pages display a "blank" column for Archive Trigger Code field, for RMI Approval process. Changed the column name from last update user to last update user before change in history list page.
42	PSS01065	DemoDisp/ APR/Development	All the uploaded files must be stored ina central upload location
